For more than 25 years Vielar is factory is top quality wood floor panels manufacturer in Lithuania. We specialize in the production of authentic classic and modern wood flooring and we are proud that Vielar is highest quality, two-layer inspirational custom floors can be found in private homes, apartments and commercial areas worldwide.

Vielaris factory uses old geometric wood cutting and jointing technology and it continuously improves production process and product quality in every stage of production.

Our strengths are possibility to combine different materials (wood and stone, wood and metal) and possibility to produce custom designed floors. Factory employs the most talented people who develop new forms and designs of wood panels, creates new surfaces and trendy colors.

The production consists of 6 product groups: classic wood panels, modern wood panels, wood panels with stone and metal intarsia, herringbone, chevron and boards.

Bespoke Wood Floor is not made overnight, it is not kept in stock – factory works by custom orders and it is ready to fulfill your vision of luxury wood floors.
